HOMESCHOOL CLASSES WINTER 2023

HOMESCHOOL

In our homeschool series, students are encouraged to form their own opinions and ask their own questions. They will create their own works of art following the Kaleidoscope process-based learning style that is essential for children to thrive. Students will work with various mediums such as printing, painting and drawing as well as sculpture, textiles, clay and mosaics in an exploratory approach to traditional subjects like math, science and literacy. This learning is hands-on and fun encouraging exploration in a safe and social environment.

Time Travel
